WALL STREET NOT ALARMED BY THREAT OF EXPLOSION.

New York, Dec. 19.—No developments. This was today's report, both on the second explosion against which Wall street has been warned, and the government's investigation of the 1920 blast.

Lower Manhattan apparently failed to take seriously letters mailed to brokers, predicting that by night fall following sky scrapers within a five block

radius of the stock exchange would be laid low.

Clerks appeared concerned only with getting to work on time. J. P. Morgan, who was supposed to be the chief object of the plot, arrived unstartled, at his office at his regular hour. The usual noon day crowd at the intersection of Wall, Broad and Nassau streets seemed greater, if anything, for New York is a city of curies.

William J. Burns, chief of the bureau of investigation of the department of justice, was still in the city, awaiting cable reports from his agents in Washington concerning the arrest of Wolfe Lindenfeld, alleged acquaintance of Lenin, in connection with the 1920 explosion. He professed himself mystified at the non-arrival of any such reports, and scanned with interest Associated Press despatches bearing on the subject, volunteering the comment that the correspondent was getting "good information."

Mr. Burns, who returns tomorrow to Washington, said the only advice received from Cosgrove had been filed before Lindenfeld's arrest. Until the department received all the facts in Cosgrove's possession, he said, there would be no round up of suspects on this side of the Atlantic.
